- Certified Intercultural Trainer

Business and individual trainings

Internationalization and globalization does not mean automatically alignment of cultures. In addition with a specific language implementation is a comprehensive knowledge of foreign business cultures, work procedures and habits, a concrete factor for your business success.

**The limits of my language
are the limits of my world.**

Ludwig Wittgenstein

Motivation

- You are moving to France for private or professional reasons or you are coming to Germany to live and work. You want to be prepared to this challenges and the intercultural differences between your native country and your new guest country and you want to deal with the Strangeness
- You want to support your international employees or delegate your employees to France
- You want appear in your relationship with French and Germans at eye level and maintain a good working atmosphere
- You want expand your business activity in France or in Germany
- You have subsidiaries in France and Germany

Duration

½ day to 2 days

Place

In our house or at a location of your choice.

• Culture-specific training target countries:

Germany and France

Foreign employees will be prepared to an effective cooperation with German colleagues, customers and business partners.

• Cross-Cultural training expatriation

The employee and his family members will be prepared to the new challenges they will expect.

• Support for stays abroad

• Support for business

The first contact with business partners is important for a basic assessment in relation to reliability, credibility, quality, size.

Method

- Analysis from case studies
- Simulations and role-playing games, pair and teamwork
- Culture assimilator, exchange of experience
- Trainer Input
- Theory and reflection phases. During the reflection will be unconscious behavior patterns revealed

We work interactively and sustainable – Selfexperience and trying from new behavior are staying at any time in the middle point. We create an ideal balance between theory and practice and we integrate participants and experience as well as specific case studies.

- Flexible and tailored to your needs
- For a effective integration during your stay
- Expand your cultural competence
- You develop a deeper understanding of perception, thought, feeling and action of your alien cultural partners
- Expand your action and communication skills
- Difficulties in deployment and return significantly reduced

Target people

- Employees, managers and executives who are working on the international level
- Newcomers
- Employees who are posted abroad
- International cooperation with French companies
- International project teams
- Re-Integration from expat employees back to their home
- Employees of intercultural teams
- Members of expat families to prepare them for staying abroad
- Diplomats
